KAEFER Construction GmbH, Frankfurt

Summary	New building of an office complex consisting of 5 sections (10 storeys) for a total of 2,000 staff, plus total interior refit of the data centre.
Location	Barmenia Krankenversicherung a. G., Kronprinzenallee 12–18, 42119 Wuppertal
Build time	May 2005 to December 2009
Client	Barmenia Krankenversicherung a. G., Kronprinzenallee 12–18, 42119 Wuppertal
Architect	aib agiplan integrale bauplanung GmbH, Philosophenweg 31–33, 47051 Duisburg
KAEFER's role	All outfitting work except HVAC
Challenge	Modern, smooth, linear architecture with additional construction planning, long gaps between building phases as units were completed in series before moving on, demolishing and rebuilding the next unit, high level of precision required
Our solution	Prepared timetable, site logistics and detailed plans, coordinated all outfitting work including external contractors, advised the architects, especially in terms of acoustics. All completion deadlines were met despite external disruptions.
Added value for client	Coordinated all outfitting contractors and interfaces, so keeping site management for the client to a minimum.
